A program of general interest is usually scheduled for each meeting, networking and sharing of information, recruitment of partners for projects, sharing information about funding sources, etc. is included at each meeting. Overall the purpose of this group is to create and maintain a community wide plan for children and youth, to coordinate programming and to identify and fill programming gaps. Bristol TN did a community wide planning process, Communities that Care in 2005. Bristol VA through the Bristol Youth Services, conducts every other year assessment and planning with a thorough planning process every 5 years.
